M.S.M Faizan

Problems

When start any project or assignment everyone face different type of problems according to their project or assignment. Likewise, when I started doing the project, initially I didn't had idea, from where to start the project. I had many colourful plans to make them amazing and beautiful, but was not known all CSS,JAVASCRIPT and VUEJS codes to execute it in the project and didn't have much practical knowledge in create webpage before create this project.

As well as, when project was going on, I got many bugs and errors in the code. I didn't had knowledge to turn the idea to execute in practical. It made my mind tension and depression. Turn me to hate the project and isolate myself from the project.

Solution

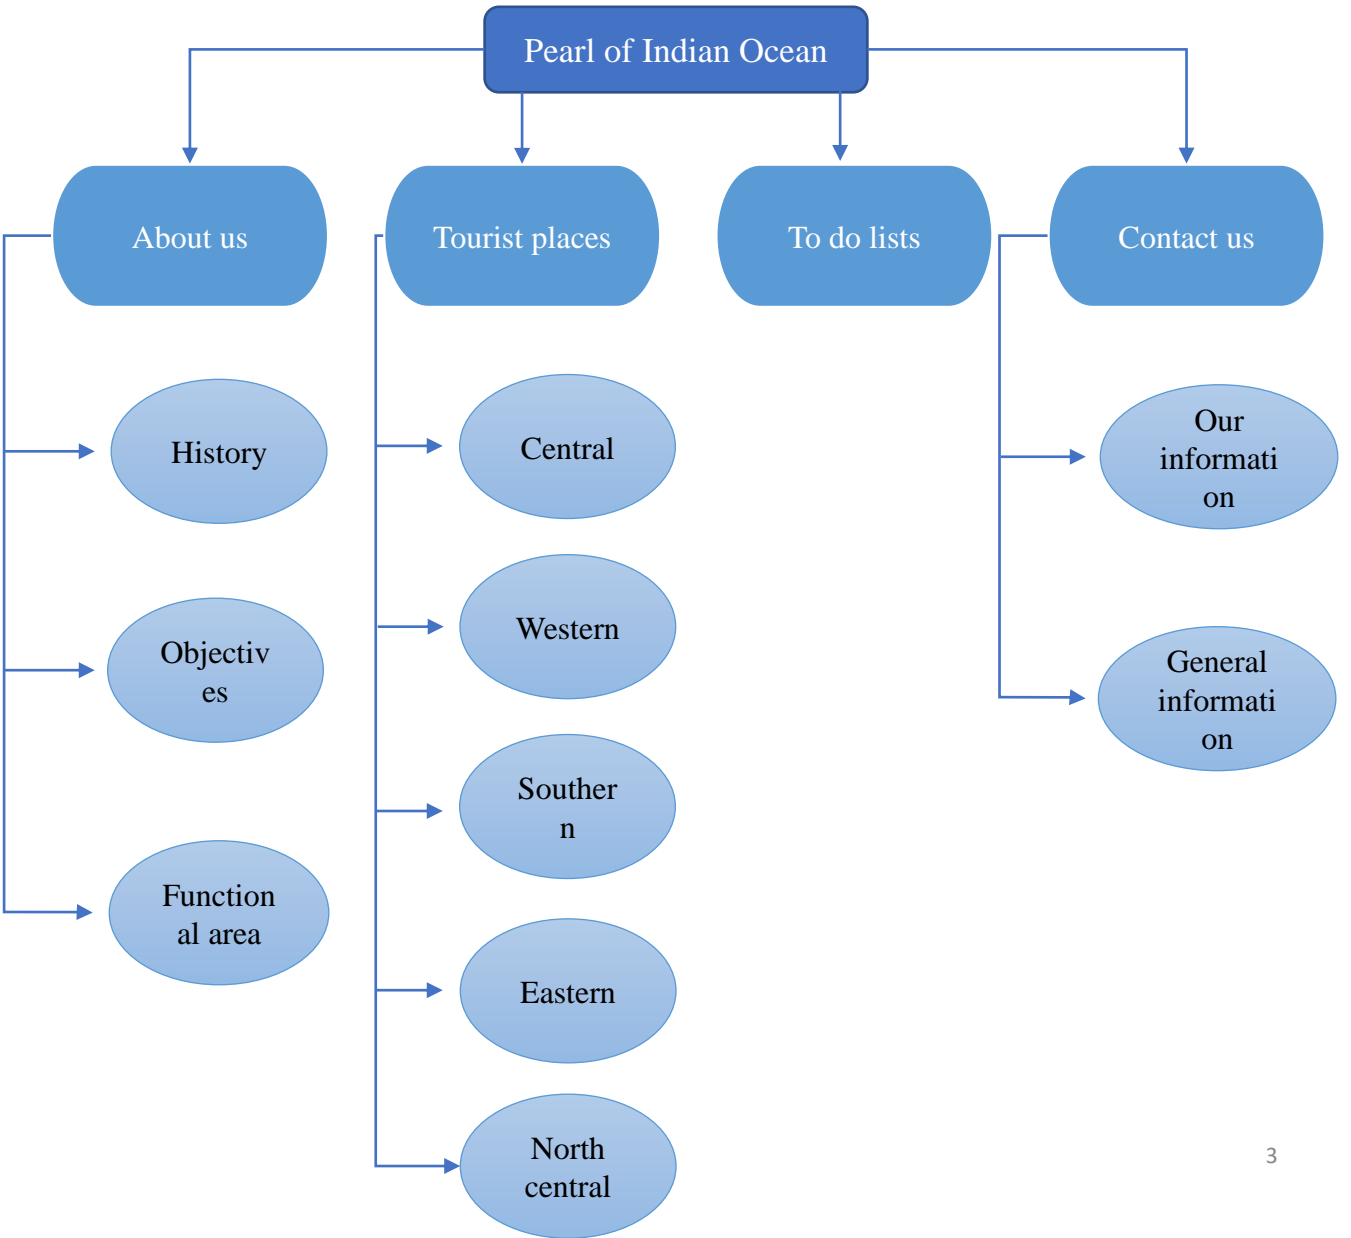

In the real world every problems and challenges have one or more solution to overcome them but must work through them in smart way. Likewise, I also met trouble which I have mentioned above. I didn't isolate myself without find the way to make the project completed. Whenever I made mistake, error and bugs relax myself to check each code of line where I have problem.

As well as I used the YouTube to clarify my doubt, got idea to make them perfect and watched videos to learned codes to execute in the project. And the website w3school helped me a lot, whenever I had doubt quickly browse it to find the way to execute code. The architectural design of the w3school show easy and quick way to find codes and teach easy way to understand.

Architectural design

when any login to the homepage they can see all link attached in the homepage. first of all, homepage link attached, anyone can click to return to homepage. History

In 1966, the Government of Sri Lanka decided to develop tourism in a planned and systematic manner, after identifying the need to set up an institutional framework. The Ceylon Tourist Board, (created by the Ceylon Tourist Board Act No. 10 of 1966.) and the Ceylon Hotels Corporation, (created by Ceylon Hotels Corporation Act of 1966.) were set up to enable this.

Created to promote economic development through the development of foreign tourism, the Ceylon Tourist Board (CTB) was a statutory body that allowed greater freedom in decision making and flexibility in financial management. The first Board of the Ceylon Tourist Board were Mr. A.C.H. De Soysa, Mr. H.W. Jayawardana QC, Mr. Ralph Deraniyagala, Mr. Upali Senanayaka, Dr. P.R. Thyagaraja, Mr. Chandra Cooray (nominee of the Ministry of Finance) and the Commissioner of Local Government as a representative of Local Government.

The Ceylon Hotels Corporation was a Joint Stock Company with public and private sector involvement. It was intended to be the commercial arm of the Government for the purpose of developing accommodation and other facilities for tourists.

The Tourist Development Act of 1968 provided the Ceylon Tourist Board with the statutory authority to develop tourism in a planned and controlled basis. The Tourist Development Act allowed the Ceylon Tourist Board to obtain land (through compensation) for development purposes. The Act also conferred powers for the Protection of Highways and Places of Scenic Beauty and vested authority in the Ceylon Tourist Board for the Registration and Classification of Tourist Hotels and all other tourist services.
